Abstract

This document serves as a sample for an invited manuscript. The page size is **6 inch** × **9 inch**. Top margin is set at **1.00 inch**, left margin is **0.75 inch** and the right margin is set at **0.5 inch**, such that the width of the text is 4.75 inch. The bottom margin MUST at least be **1.0 inch**. The font is Computer Modern Roman and its size is small scale. DO NOT change the size, margin, and font settings.

1 Introduction

Here is how to cite an article in a journal [1], or a book [2].

2 Section I

Text for Section I can go here.

Multiline equations are obtained by using the `eqnarray` environment.

Use the `\nonumber` command at the end of each line to avoid assigning a number:

$$\begin{aligned} \sum |M_g^{\text{viol}}|^2 &= g_S^{2n-4} (Q^2) N^{n-2} (N^2 - 1) \\ &\times \left(\sum_{i < j} \right) \sum_{\text{perm}} \frac{1}{S_{12}} \frac{1}{S_{12}} \sum_{\tau} c_{\tau}^f. \end{aligned} \quad (1)$$

Table I: Summary of various lengths (in inches) used to typeset this manuscript

description	value
right margin	0.75
top margin	1.00
left margin	0.5
bottom margin	>1.00
paper width	6.00
paper height	9.00

3 Section II

Tex for Section II can go here.
